Media description

PawPuls helps pet owners organise essential information in one place: profiles, health records, vaccinations, medication, appointments, documents, costs, walks and emergency information. The app is built local-first and comes with no ads, no subscription and no mandatory account.

Core features

Organisation	Manage multiple pet profiles, appointments, documents, costs and day-to-day tasks.
Health	Keep vaccinations, medication, weight history and other health information easy to review.
Preparedness	Emergency records, reports, PDF exports and backups help keep important information ready when it matters.
For every companion	Suitable for dogs, cats and other pets - from the first profile to a personal memorial space.

What makes PawPuls different

Local-first	Pet data is generally managed on the user's own device. PawPuls does not require a PawPuls cloud.
No recurring charge	PawPuls is purchased once. There is no subscription and no in-app advertising.
Emergency record	A dedicated emergency record keeps key information ready for urgent situations.
